Subject: Mail for other users hitting my account

Posted by joshuastarr on Wed, 24 Aug 2005 20:27:03 GMT View Forum Message <> Reply to Message

Is there a reason why mail that is addressed to other users would bleed into/hit my email account with no "No Spam Today!" modifications to the subject line or header?

I am getting an increasing amount of spams AND regular messages that get sent to my account with no modification, but intended for a different recipient.

**Thanks**
