
Subject: V3: Is there a way to show the SpamAssassin ratings in the log?

I have upgraded to the new version 3.0.2.1 without any problem. All seem to work fine except that SpamAssassin does flag more messages with RC 255 than the earlier Spamassassin version.

Since my configuration deletes all flagged Spamassasin RC 255 messages, I would like to have a way to show the detailed rating (reasons) in the NoSpamToday! log.

Is this possible?

Thanks
Andy Brunner
