---

We are happy to announce the release of version 1.2.4.3 on July 12, 2004.

This is a minor release with just a few small optimizations in the spamassassin config, and some new settings that help to control mail traffic. This HowTo document describes the new features:

<http://www.byteplant.com/support/nospamtoday/howtohandlenondelivery.html>

Please find the revision history here:

<http://www.byteplant.com/support/nospamtoday/server/changes.html>

Please help us to improve NoSpamToday!, any comment or suggestion is highly appreciated.
