Hallo

on the Report Tab the Information "Action" is helpful. But the Reason why a EMail was blocked would be very important. Is it possible to add more information about the Reason of the saved action?

Thanks for Response

Angelo

Great idea, this should also include the name of the filter that rejected the e-mail.

Also it would be great if you could color-code the rows, light-green for accepted e-mails and light-red for blocked e-mails.

Will this feature Request be implemented in one of the future versions?

Thanks Angelo
