I am getting 50+ Flash Logo spams daily.
Does anyone know of custom rules to get rid of those?

Thanks!

Try this rule:

```
body FLASH_LOGO      /Flash\s*Logo/i
score FLASH_LOGO     10.0
describe FLASH_LOGO  Flash Logo Advertising
```

Add these lines either to your local.cf file or to a newly created "myrules.cf" file in the ruleset subdirectory.
