I received an email with the following score.

0.0 HTML\_MESSAGE BODY: HTML included in message  
4.4 BAYES\_99 BODY: Bayesian spam probability is 99 to 100%  
[score: 1.0000]  
1.4 DNS\_FROM\_RFC\_WHOIS RBL: Envelope sender in whois.rfc-ignorant.org  
1.7 DNS\_FROM\_RFC\_POST RBL: Envelope sender in  
postmaster.rfc-ignorant.org  
-0.9 AWL AWL: From: address is in the auto white-list

What is the auto whitelist?
