See www.completewhois.com for info on what IP blocks belong to what countries. Below is a sample of how to check the IP address and block foreign spam.

```
header      WHOIS_COUNTRY  eval:check_rbl('whoisctry',
'country-rirdata.dnsiplists.completewhois.com.')
tflags      WHOIS_COUNTRY  net
score       WHOIS_COUNTRY  0.01
```

```
header      WHOIS_CHILE    eval:check_rbl_sub('whoisctry', '127.0.67.76')
describe    WHOIS_CHILE    CHILE
tflags      WHOIS_CHILE    net
score       WHOIS_CHILE    20.0
```

```
header      WHOIS_KOREA    eval:check_rbl_sub('whoisctry', '127.0.75.82')
describe    WHOIS_KOREA    SOUTH KOREA
tflags      WHOIS_KOREA    net
score       WHOIS_KOREA    20.0
```

```
header      WHOIS_CHINA    eval:check_rbl_sub('whoisctry', '127.0.67.78')
describe    WHOIS_CHINA    CHINA
tflags      WHOIS_CHINA    net
score       WHOIS_CHINA    20.0
```
