We are happy to announce the release of version 2.3.1.3 on Sep 13th, 2005.

For a complete list of changes, please find the revision history here:

<http://www.byteplant.com/support/nospamtoday/server/changes.html>

The new version can be downloaded here:

<http://www.nospamtoday.com/download/server/>

Please help us to improve NoSpamToday!, any comment or suggestion is highly appreciated.

I don't know about you, but I saw on the SpamAssassin announce list that version 3.1.0 was released today as well, so I'm probably going to hold off until a version with that integrated is released, as NST is working well for us at the moment.

I concur. These guys are great about implementing new spamassassin versions quickly. It won't be long til that release is out. I'm just curious what the "minor changes" are!
