Hallo und guten Tag!

Wir haben folgende Problematik:

Mailadressen.

Let's stick to english here to let the others participate.

You can easily set up a recipients list in NoSpamtoday using the "Restrict spam checking" feature in the Admin Wizard. Simply copy&paste the addresses you want to be checked for spam from your daily admin mail.

As NoSpamToday only accepts mails for addresses your Mail Server accepts, a better way to solve your problem is to disable the unwanted addresses in Exchange directly. Please see this HOWTO document for details:

OK, thanks a lot!

Bye!
