If we buy the current version now, do we get the upgrade free when version 2 comes out?

and also is it a yearly fee or a one off?

Cheers

We will make an announcement regarding NoSpamToday! 2.0 next week, including a list of new features, proposed release and beta test dates, and licensing information.

The purchase price is a one-time fee, and maintenance upgrades are free.

Upgrades to a new version with new features (this happens about once a year) can be purchased at a discount. If you purchased the earlier version within 3 months of the release of the new version, the upgrade is free.

If you haven't already, please subscribe to our newsletter to stay informed.
