Is there a whitelist for the attachment filter such as any email FROM an address contained in the list will not be checked?

Thanks!

James

This feature is currently not supported. All filters can be enabled/disabled for a set of recipient addresses (TO), but not for sender addresses (FROM). I just put your proposal on our development agenda for discussion.

Thank you! It would be a very useful feature.

BTW, Thanks so much for your awesome support. You guys are the BEST!
