In earlier version (1.xxx) daily report contained number of Spam mail:

Mail Statistics (Since Last Report):

spam mail:	1034 (54.5%)
legitimate mail:	864 (45.5%)
unchecked (exceeding max. mail size):	111
unchecked (spam check disabled):	0
unchecked (error):	0
total no. of mails received:	2009

Now we cannot see how much spam mail we receive (we have Accept and Deliver method, Spam mails flagged as Spam).

Daily statistics for proxy "SMTP Proxy":

Totals:

Messages filtered:	1823 (100.0%)
blocked:	29 (01.6% of 1823)
passed:	1794 (98.4% of 1823)
Messages not filtered:	0 (00.0%)

	=====
Total	1823 (100%)

How could we see statistic of Spam mail?

Please check the "Detailed filtering results" section (right after the total figures) .  
It should contain something like that:

Detailed filtering results:

Accept/deliver	97 (18.5%)
Delete (unexpected client disconnect)	5 (01.0%)
Recipient address reject	59 (11.2%)
Attachment Filter:	
Reject/delete	68 (13.0%)
Reject/deliver	1 (00.2%)
(Messages with MIME violations: 60)	
(Number of attachments blocked: 69)	
Clam Anti Virus:	
Reject/delete	66 (12.6%)
Spam Trap:	
Accept/delete	34 (06.5%)
SpamAssassin:	
Reject/deliver	195 (37.1%)

We have set SPAM mail as accept/deliver, only flagged as spam mail. That is reason to see good and spam mail as accept/deliver. Question: Is it possible to see % of SPAM flagged mail inside accept/deliver mail.

Simon

Yes, this works since after version 2.0.2.3.

Instead of "accept/deliver", choose "accept/deliver (junk)" as the spam policy, "accept/deliver (junk)" is a separate tab in the report.

In newer versions, the SpamAssassin filter setup dialog by default uses "accept/deliver (junk).

Upgrade to the latest version, bring up the dialog, and on the policy page change the setting to reject/deliver, back to accept/deliver, and save your changes. This should do it.
