On the Statistics tab, if I zoom in on 1 weeks worth of spam detail, the screen no longer updates (unless I zoom back out). Is there a way to limit the number of days displayed? After 3 months the lines are getting itty bitty.

You can. Open the noSPAMtoday.cf file with a text editor, and add the following line in the first section (ServerSessionManager):

```
StatisticsTimeFrame="30"
```

This limits the display to 30 days. The default value for this setting is 365.

Note that with this setting you will loose data older than 30 days, so if you want to keep older statistics (for whatever reporting purpose you might think of), back up the file noSPAMtoday_Statistics.csv.
