We are happy to announce the release of version 3.0.2.3 on May 29, 2007.

For a complete list of changes, please find the revision history here:

<http://www.byteplant.com/support/nospamtoday/server/changes.html>

The new version can be downloaded here:

<http://www.nospamtoday.com/download/server/>

Please help us to improve NoSpamToday!, any comment or suggestion is highly appreciated.

I keep downloading and installing it, but it still says 3.0.2.1.

Would it be possible for you to include the full version number in future install packages, even if its just in the version information in the file's properties.
