Hello!

Since the last update the Bayes Database seems to be "frozen". The Maintenance Tab the Entry for "Newses Token" always is "Jan 01, 1970, 00:00:00".

Unfortunately it seems that the Bayes Database has stopped Learning from Honeypots to.

How can i correct this?

Best Regards

Martin Seitl

Please zip the contents of your "db" subfolder and send it to [nstsupport@byteplant.com](mailto:nstsupport@byteplant.com) for analysis.
