How do we download the last v2 version? We've not upgraded to v3 but need to get v2.3.5.3 which I think we're still entitled to.

Thanks, Rob.

The latest NoSpamToday! Version 2 release is V2.3.5.7.

It is still available here:

IMPORTANT:

Please note that NoSpamToday! version 2 is no longer supported.

We strongly recommend all NoSpamToday! customers and freeware users to upgrade to NoSpamToday! version 3 as soon as possible.
