Jan 07, 2009, 12:16:16 Session 0: Connection from 192.168.1.9 accepted on 192.168.1.9:25

Jan 07, 2009, 12:16:16 Session 0: Incoming mail action: recipient reject

Jan 07, 2009, 12:16:16 Session 0: Connection from 192.168.1.9 closed

Why can't I send from/to myself?

Probably the recipient address does not exist or is not in the domain you accept messages for.
Turn on detailed logging to see SMTP commands and mail addresses.
