---

After I registered No Spam Today for workstations 1.0.6.2

Outlook express does not work.

I can get my mail one time then I must uninstall and reinstall then it will work one more time then i have to do it again...under the trial version i never had any problems...

AHHHHHHH!

help!!!

Win xp pro

1g ram

3.0g cpu

sata 160g

high speed internet
